The **Orders** area shows orders that have been placed by any person in your financial institution [FI Group]. There is also an Export button that lets you export a csv file of past orders. The block of information for an order reports the person who placed the order, the (website) order number, the PO number if the order was paid by PO, and it shows the status of the order. If an Orders Shipped, you can find the tracking number.
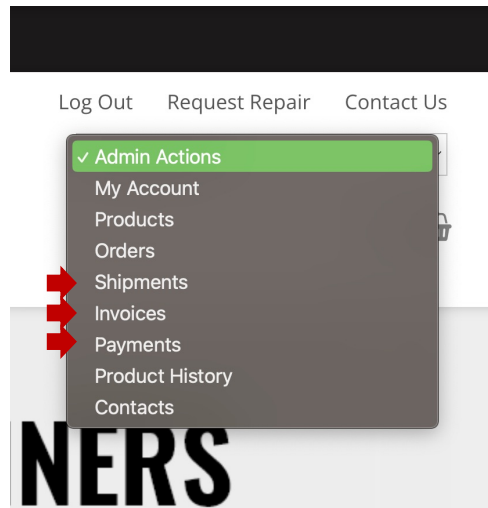

The **Shipments** area shows shipments that have been initiated. The tracking numbers will show up here.

The **Invoices** area shows invoices. The table of information shows the PO number, amount and days outstanding.

The **Payments** area shows payments that have been made against invoices.

The **Product History** area shows a table of products that have been ordered by people in your FI Group. Clicking on "Buy It Again" or "Add to Cart" will add that product to the cart. Clicking on "Order History" will show information about the orders where this product was ordered. The column head cell with gray arrows means that you can click on the column head to sort by that column.

NERS

The **Contacts** area shows the buyers in your group. The green circle means that the user is active. Click on the far right circle to turn it red and deny purchasing privilege to that buyer.

Enabling software

This website experience is brought to you by BigCommerce® and Active Hub™. It provides a B2B portal integrated with owner's ERP system which is cloud-based Acumatica.

BENEFITS

- Facilitates customer ordering: up-to-date product or service offering, less human interaction, accelerated cadence of ordering, smooth error-free fulfillment

- Helps customers have more visibility into their transactions, invoices, shipments and payments

- Helps salespeople be more productive

- Provides a user-friendly user-interface for customer service

- Connects the app-owner's ERP/B2B-portal with other software solutions so that information can flow appropriately
