TELLERSCAN® TS240

- Simple to Operate

- Engineered for Durability

- Exceptional Image Quality

- Scan Speeds up to 150 DPM

- Ultraviolet Image Capture

Fast. Flexible. Reliable. Proven.

As Digital Check's fourth generation auto-feed scanner, the TellerScan TS240 represents a legacy of proven performance and reliability. Ideal for a range of applications including capture at the teller window, remote deposit capture and branch back counter environments.

Built for Speed and Flexibility
Regardless of the scanning environment, the TS240 has the speed to meet your processing time requirements. 50, 75, 100, and 150 DPM speed configurations are available.

Inkjet and Thermal Printing Options
A single line inkjet printer for rear endorsement and a separate thermal receipt printer module are available. The thermal receipt printer fits neatly under the base scanner unit to provide optimal desktop space savings.

Encrypted Card Reader
The TS240 becomes a complete merchant check imaging and credit card payment processing machine with the addition of the optional DockXpress encrypted card reader. Designed to fit underneath any TS240 scanner, the DockXpress provides the strongest security for your credit and debit card transactions by encrypting sensitive data as soon as the card is swiped.

Ultraviolet (UV) Image Capture
For markets utilizing the latest in UV document security protection, the TS240 is easily configured to handle ultraviolet image capture. UV printed security backgrounds and other fraud prevention features are captured for verification without any performance impact. The TS240-UV is compatible with UV standards worldwide.

Image and MICR Quality is Everything
The TS240 features the highest image quality camera and MICR read-head components available. Combine that with our special document handling technologies, even the most challenging money orders and checks written with gel pen ink are a snap to process.

No-Hassle Maintenance
The TS240 is designed to be simple to use and easy to maintain for the life of the scanner. No need to worry about frequent part replacements or rebuild kits common with other scanners.

THE SECURE CHOICE™

Optional TellerScan Add-ons

TS240 TTP Thermal Receipt Printer
The TTP by Digital Check has been specially designed to integrate seamlessly with the TellerScan TS240 for best-in-class scanning and receipt printing in a teller window environment. The TTP takes advantage of industry leading thermal printing technology by CognitiveTPG to produce full graphic enabled customer receipting. When searching for the most versatile receipt printing solution to replace your expensive ink-based system, the TTP will save hundreds of dollars per year and without the hassle of cartridges or ribbons. For more information, go to: www.digitalcheck.com/ts240ttp
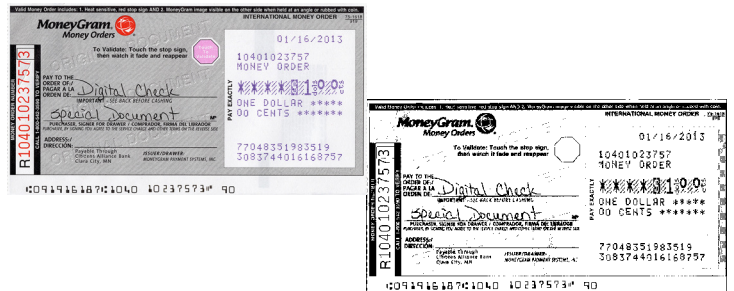

Advisor by Digital Check®
This remote monitoring and management software solution allows organizations to remotely monitor hardware assets so problems can be resolved before customers are impacted. Equipped using the latest in geo-location technologies, Advisor provides real-time intelligent tracking of each scanner deployed. Automatic alerts provide immediate notification in order to prevent fraudulent or unauthorized deposits. Implementing Advisor enables organizations to ensure a positive customer experience while responding to growing internal demands for secure monitoring of deposits across multiple remote channels. For more information, go to: www.digitalcheck.com/DCAdvisor

Image Enhancement for Difficult Items
Most image quality failures today are generated by a handful of documents that are notoriously difficult to image; Money Orders, security checks, and items with bright backgrounds or busy designs. Digital Check specializes in tackling these problem documents with our advanced image capture technology. Utilizing special document handling techniques, we identify and filter out the background noise to capture what's important.

Experiencing an issue with a particular type of check or money order leading to exception item processing? This is the solution for you. Banks and Credit Unions around the world have reported significant cost savings by minimizing errors and Day-Two research and repair with Digital Check. PRODUCT SPECIFICATIONS

Size
H: 7.5" (19.05 cm) W: 5.10" (12.95 cm) L: 11.10" (28.19 cm)
Weight: 5.20 lbs. (2.40 kg)

Document Handling
Entry Pocket: 100 items at a time
Exit Pocket 1: 100 items at a time
Document Height: 2.12" - 4.25" (54 - 108 mm)
Image Capture Height: Up to 4.17" (106 mm)
Document Length: 3.19" - 8.98" (121 - 228 mm)
Document Weight: 16 - 28 lb. bond (60 - 105 gsm)
Document Thickness: 0.0032" - 0.0058" (0.081 - 0.147 mm)

Printer Option
Single line inkjet printer with user replaceable cartridge

Scanner Speed
50, 75, 100, or 150 documents per minute

MICR Recognition
(Magnetic Ink Character Recognition) for E13B
(North America) and CMC7 (Europe)
Optical Character Recognition to enhance MICR Read,
further enhanced using DCC's Best Read™ API function

Connectivity
USB 2.0 cable and power supply included

Camera Specs (Scanning Method)
Concurrent Two-Sided Duplex
Resolution: 300 dpi (850 Pixel Linear Array)
Light Source: Tri-Color LEDs
Optional Front Ultraviolet Camera

Supported Operating Systems
Windows® XP, Windows Vista® (32/64 bit), Windows 7® (32/64 bit), Windows 8® (32/64 bit), Windows 10® (32/64 bit)
Mac OS (Contact Digital Check Technical Support for specific versions supported)
Linux (Contact Digital Check Technical Support for specific versions supported)

Standard Warranty
1 year warranty

Electrical
Power Consumption: 45 Watts
Input Voltage: 100 to 240 VAC, 50/60 Hz
Separate Standard Power Supply: Auto sensing for voltage

Environmental
Operating Temperature: 60° - 90° F (15° - 32° C)
Operating Humidity: 35 - 85% non-condensing

Certifications
Safety: UL, cUL, CE
FCC: Class A
EMC: IEC CE
Efficiency: CEC V 115V - Power Supply
RoHS Compliant
